## SUMMARY

Technical Product Manager with 8 years building data-intensive, cloud-scale products across F100 enterprises and B2B SaaS startups. Led 0 → 1 and scale initiatives spanning 52K internal users and 5.7M+ cloud resources, delivering \$8M/year OpEx savings, and reducing access-risk exposure by 94%. Operationalize data platforms and ML decisioning into automated, high-leverage product decisions. Hands-on with AWS, data pipelines, and GenAI prototypes.

---

## EXPERIENCE

### Capital One

#### Product Manager - Technical, AI/ML

Lead Analyst

New York City, NY

Jan 2025 – Present

Oct 2020 – Dec 2024

*Owned a portfolio of data and AI/ML products securing enterprise cloud access across cyber, risk, and engineering teams.*

#### GenAI Access Decisioning

- Led 0 → 1 development and risk-tiered GTM for GenAI access automation, expanding from a 2-LOB pilot to all 12 LOBs
- Productized a 26B open-weight LLM and real-time API, and justification & identity data signals; P95 under 1.5s
- Established model governance with golden datasets and red-team testing; 95%+ approval and rejection precision
- Processed 125K access requests decisions, automating 64% of all requests, and reduced cycle time by 53% (51 → 24 hours)

#### Automated Employee Access Revocation

- Owned and defined product strategy from MVP to roadmap and go-to-market for real-time access revocation product
- Led delivery of AWS-based automated system that removed 364K+ human accesses and eliminated manual reviews
- Drove \$8M/year in OpEx savings through workforce efficiency, while reducing risk exposure window by 40%
- Scaled enterprise adoption to 52K users across 10 LOBs through executive alignment and company-wide launches

#### Automated Risk Certification

- Established a continuous risk certification product, its system design, API, and UX, for coverage of 5.7M cloud servers
- Led phased delivery of serverless risk scoring, supported by enterprise comms, office hours, and guided onboarding
- Reduced risk exposure window by 94%, onboarded 811 enterprise teams, and avoided \$5M in potential fines
- Led product enhancements that improved remediation rates by 37% through self-service dashboards and ServiceNow incidents

### Vitalize Venture Capital

#### Founding Angel Investor

Chicago, IL

July 2021 – July 2023

- Founding member and investor; advised early-stage startups on feature validation, product UX, and go-to-market strategy.

### O9 Solutions

#### Product Manager - Technical, Cloud

Dallas, TX

Aug 2017 – Oct 2020

- Led end-to-end product delivery for a B2B SaaS planning platform serving two global manufacturers, partnering with sales, pre-sales, supply chain, and engineering to scale adoption to 300K MAUs
  - Drove planning workflow improvements that reduced inventory costs (\$15M/yr) and improved efficiency (+93%)
  - Shipped ML forecasting enhancement (MAPE reduced by 10%), accelerating planning and contributing to +\$5M revenue
- 

## EDUCATION

UNIVERSITY OF MINNESOTA, Carlson School of Management, Minneapolis, MN

May 2017

#### Master of Science in Business Analytics

VIT UNIVERSITY, Vellore, India

Bachelor of Technology, Engineering

May 2016

---

## SKILLS

- **Certifications:** Amazon Web Services Solution Architect (Associate); Product Management (Capital One)
- Product, Engineering & UX: Product discovery, PRDs, roadmaps, stakeholder management, executive presentations, GTM, Agile, Scrum, Kanban, Jira, Confluence, User research, interviews, usability testing, surveys, UX design, information architecture, GitHub, Mixpanel, SurveyMonkey
- Data, Analytics, Cloud & Platforms: AWS, SQL, Python, R, Snowflake, Databricks, Splunk, MLOps, Tableau, QuickSight
- ML, AI & GenAI: Forecasting, classification, clustering, anomaly detection, NLP, recommendation systems, A/B testing, prompt engineering, RAG, LLM, ChatGPT, Claude, Gemini, Cursor, MCP
